WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME Pak OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

WARNING - Seizures

Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before. Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

- **Convulsions**
- **Altered vision**
- **Eye or muscle twitching**
- **Involuntary movements**
- **Loss of awareness**
- **Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

STORY

Grunilda the witch's plans for world domination and youthful good looks had gone too far. Banjo the good-hearted bear and his faithful feathered friend Kazooie had boldly challenged Grunty's evil, leaving the wicked witch trapped beneath a boulder in an almost forgotten corner of Spiral Mountain.

In the months after Grunty's defeat, peace returned to the Isle of Hags, but all the while Grunilda's thoughts were consumed by one thing - a plot for revenge! If it hadn't been for Banjo and Kazooie's intervention, life could have been so different...

And now, with the help of her henchman Klungo, Grunty isn't going to let a little thing like history get in her way. She has a plan that will not only separate the heroic pair, but also wipe away the memory of her defeat at their hands forever!

GAME RULES

Banjo must use all the moves at his disposal to collect Notes and Jigglies if he's to save Kazooie and rid the past of the Mecha-Gruntys menace. Collect Musical Notes to earn new moves, and take all Jigglies earned to the Jiggly Temple to open new worlds. Use the Honeycomb eggs dropped by defeated enemies to recover lost health.

**BANJO:**
With his best friend Kazooie captured and arch-enemy Gruntilda planning to write him out of history, Banjo is landed with the task of saving the Isle of Hags from an uncertain future.

**KAZOOIE:**
All Banjo's sharp-tongued pal wants to do is get back together with her partner - then our favorite Brolgull would ensure that the mad hag didn't have the last laugh!

**MECHA-GRUNTILDA:**
Gruntilda Winkywink is a witch on a mission: to erase all trace of her last defeat and take her rightful place as ruler of the Isle of Hags. Never mind that her body is trapped beneath a huge boulder!

**KLUNGO:**
The most devoted of all Gruntly's henchmen has come up trumps with a mechanical suit to let her spirit travel back through time, and his inventive assistance surely won't stop there.
BOZZEYE:
When it comes to new attacks and ways to explore, this mole has all the knowhow. But Bozzeye’s lessons don’t come cheap, so get collecting Notes!

MUMBO JUMBO:
Mumbo’s special transformation spells will help Banjo to no end in locating secret areas and extra Jiggles, Notes, and Jinjos. (Read pages 16-17 for more on Transformations.)

JINJO ORACLE:
She may not get around much, but this gravely-voiced pillar of the community has a wealth of gossip and secrets to share with Banjo just as soon as he rounds up some Jinjos.

JIGGYWIGGY:
Left unable to break the magic seals on the world entrances by Gruntys’s spells, Master Jiggywiggy needs Banjo’s help in returning the scattered Golden Jiggles to the Jiggy Temple.

HONEY B:
Young Miss B sure is sweet. If Banjo brings her enough Hollow Honeycombs, this potential lifesaver will work her magic on that all-important health bar.
With the Mumbo tokens that Banjo earns in his conflicts with Kluno and Mecha-Gruntie, the witch-doctor in training is able to transform the bear into various other creatures and objects, inferring new powers each time. But remember that Mumbo’s still learning, and his magic may weaken in some corners of the Isle of Hags.

**Candle:**
This bright spark in Mumbo’s repertoire will shed some light on the situation for Banjo. The little hothead won’t fade when it comes to dealing with scary badgies, but would prefer to be kept out of the damp.

**Mouse:**
This pint-sized transformation may not be able to swim, but get him into a tight spot and you’re guaranteed to find something for him to sink his teeth into.

**Octopus:**
When an expert is needed in poisonous or deep-water exploration, the octopus is the only option. With unlimited water bombs and a swimming high jump, the transformation caused by this spell is sure to come in handy.

**Tank:**
A sturdier piece of Mumbo magic would be hard to find. The tank is a real heavy hitter with a payload that can blast its way into uncharted territory.
COLLECTIBLES

JIGGIES:
These magical objects are the missing pieces that will open new levels for Banjo to explore, and are vital in completing the quest.

JINJOS:
Every Jinjo carries a message, and after rescuing one Banjo can ask the Jinjo Oracle to pass on its secret. When the five Jinjos trapped on each world are found, Banjo is rewarded with a Jiggy.

MUSICAL NOTES:
As Bocca says, "There’s nothin’ I like to see more than a load o’ sparklin’ notes!" So if Banjo wants to learn more moves, he’d better collect as many as he can.

HONEYCOMBS:
These are the measure of Banjo’s health, and each one collected will restore one or two units. Defeated enemies will often leave a honeycomb to give Banjo a chance to recuperate.

HOLLOW HONEYCOMBS:
These rare honey holders allow Honey B to add extra units to Banjo’s energy bar when delivered to her hive near the entrance to Gruntys Lair on Spiral Mountain.

SPECIAL HONEYCOMBS:
Found by breaking open the Honey Hives dotted around the Isle of Hags. Skill Stop 1: Honeycombs flash as they move in sequence along Banjo’s health bar. Random Stop 2: Honeycombs flash randomly; a well-timed press of the A-Button could reward you with full health.
BATTERY EGGS:
Battery eggs pack an electric punch that will give Gruntty's minions a real shock.

ICE EGGS:
Perfect for knocking hot-headed badguys out cold and temporarily freezing all others to the spot.

BLUE EGGS:
These are the first eggs that Kazooia is able to fire. They may be the weakest type, but they're easy to find and she can carry more of them than other types.

FIRE EGGS:
These flaming missiles are hot enough to vaporize ghosts and burn most enemies to a crisp.

GOLD FEATHERS:
With the help of a Wonderwing pod, these can give Banjo a shield of invulnerability against all of Gruntty's troops. The effect lasts only as long as Banjo has feathers.

MUMBO TOTEMS:
Show Gruntty and Klungo who's boss to earn Mumbo totems, then take them to Mumbo to unlock valuable transformation spells.
Banjo and Kazooie will encounter many different enemies on their adventure, all bent to Gruntilda's will and intent on stopping the heroes in their tracks. Use your attacks wisely and send them packing before they get the chance to do any lasting damage.
ADVICE

- Friendly characters will try to attract your attention with an exclamation bubble when they have something new to tell you.

- Banjo can't hold his breath forever; collect air from underwater bubble fountains to put off that frantic rush to the surface.

- Pads related to moves as yet unknown to Banjo will flash between static interference and the move appropriate to that pad.
